

LESLEY MORTER

**IB SCHOOL
COUNSELOR**

**CAS
COORDINATOR**

I hold a Master's degree in Guidance and Counseling and a Bachelor's degree in Elementary Education, both of which are from the University of South Florida, Tampa. My 28 years of experience span every grade level, K-12, including assignments with, but not limited to, students with Autism Spectrum Disorder (ASD), students in foster care, incarcerated youth, and gifted/academically talented students. More recently, I also held the position of School Counselor for the IB Program at Hillsborough High School.

“Our student body is the best part of the IB Program. They put forth great effort to be the best version of themselves. By reinforcing the IB Learner Profile, such as principled, caring, balanced and reflective, they develop life-long skills that make them an invaluable asset in their community.”
