

CARRIE ESLICK

IB FRENCH 4&5

PRE-IB SPANISH 1

I achieved my BA in International Studies and French with a minor in Spanish from the University of Oregon. I then moved to Florida and completed my MBA from the University of Tampa. After teaching for about ten years, I decided to strengthen my teaching through a double master in Curriculum and Development and Spanish Language and Culture from James Madison University and the Universidad de Salamanca.

“I love how it makes students into a well-rounded individuals, capable of finding answers and applying their knowledge into reflective applications rather than simple rote memorization. I also love that it is an international program and that other students throughout the world are studying and learning parallel to those here.”
